EDUCATION

Bachelor of Technology in Computer Science

Techno India College of Technology, Newtown, Kolkata

Aug 2018- Aug 2022

CGPA - 8.2

Class 12th Boards

D.A.V Public School, Bariatu, Ranchi

May 2015- May 2017

72%

TECHNICAL SKILLS

- **Frontend Technologies:** HTML, CSS,SCSS JavaScript, TypeScript.
- **Frameworks & Libraries:** React, Tailwind Css, Next Js, Gsap, React Router,Bootstrap,Material Ui, React Query.
- **State Management:** Redux Toolkit, Context API.
- **Version Control :** Git & Github.
- **Basic Backend :** Firebase, Appwrite,Api's.
- **Soft Skills :** Problem solving , Communication skills, Time management, Team Collaboration.
- **Other:** C,C++, Data Structure & Algorithms, Vs Code ,Figma, Dev tools,Responsive Design.

PROJECTS & WORKS

Netflix Clone

[Live Link](#)

[Github](#)

- Built a Netflix-inspired movie streaming platform using **ReactJS** for a dynamic and interactive user interface.
- Applied Tailwind CSS for efficient styling and **Redux** for state management and reduced the number of **HTTP** request.
- Integrated **TMDB API** to retrieve detailed movie data, including synopses, ratings, and trailers.
- Deployed the platform on **Firebase** with secure hosting and implemented a robust user authentication system.
- Enhanced user experience by integrating AI-powered search features via **Gemini AI API**, offering intelligent movie recommendations based on user queries.

Food Odering App

[Live Link](#)

[Github](#)

- Developed a feature-rich food ordering app inspired by Zomato and Swiggy using React,Redux,**Tailwind Css**.
- Integrated the live Swiggy API to provide **real-time** restaurant and menu data, ensuring users have up-to-date information.
- Implemented a robust **CORS** solution to address cross-origin resource sharing issues, by using a **proxy server** enabling secure and reliable external API integration.

Youtube Clone

[Live Link](#)

[Github](#)

- Integrated the YouTube Data API to fetch real-time video data, delivering a dynamic and interactive user experience.
- Designed a user-friendly interface featuring seamless video streaming and a powerful search functionality using **debouncing** for optimal performance.
- Implemented **infinite scrolling** with **throttling** to efficiently load video details, providing a smooth and seamless browsing.

Pi.AI (ChatGpt Clone)

[Live Link](#)

[Github](#)

- Developed Pi.AI , a web application that enabled users to ask queries and receive instant responses through seamless integration of the Gemini API for result fetching.
- Designed the application with a clean and user-friendly interface to enhance accessibility and usability.
